THE ELASTIC ENGINE

2-DAY STRIKER S&C PROGRAM

02

I RULES

- Explosive work first, while you're fresh. Never train power to failure.
- Move every rep with max intent, as fast as possible.
- Low reps, full recovery between explosive sets.
- 2 non-consecutive days a week, 48–72 h between hard explosive sessions.
- Taper volume in the final 7–10 days before a fight.

DAY A

LINEAR POWER & POSTERIOR CHAIN

- Primer:** 90/90 breathing + hip & shoulder CARs
3–4 min · *set the canister*
- Box jump** (step down, reset each rep)
4×3 · *land soft, absorb*
- Med-ball overhead slam**
4×4 · *full-body extension → flexion power*
- Trap-bar or conventional deadlift**
4×3 (heavy, fast off the floor) · *braced, ground-up*
- Push-press or landmine press**
3×5 · *leg-driven overhead power*
- Weighted pull-up**
5×3
- Ab-wheel rollout or hollow-body hold**
3×6–8 / 20–30 s · *resist the spine extending*
- Suitcase carry** (heavy, one side)
3×30 m/side · *resist side-bend*
- Med-ball rotational throw** (side-on to wall)
3×5/side · *rear hip → opposite lat → release*

Option: Reverse hyper (Westside), if you have access. Sub in for or add to the deadlift on lighter weeks.

DAY B

ROTATIONAL & LATERAL POWER

- Primer:** 90/90 breathing + 90/90 hip switches + open books
3–4 min · *prep rotation*
- Broad jump** (stick the landing)
4×3 · *deceleration control*
- Lateral bound** (skater)
3×4/side · *hip stability on landing*
- Front squat or heavy goblet squat**
4×4 (braced, fast up) · *vertical, pressurized torso*
- Single-leg RDL**
3×6/side · *lat → opposite glute + balance*
- Weighted dip**
5×3
- Pallof press** (cable or band)
3×8/side · *resist rotation*
- McGill Big 3:** curl-up · side plank · bird dog
descending pyramid (e.g., 6/4/2 "reps," ~10 s holds)
- Cable/band horizontal chop + lift**
3×6/side each · *high-to-low and low-to-high*

I DAILY (ANY DAY) McGill Big 3 + mobility can run every day.
